

FREERIDE XXL

Pure freedom at 3000metres

The Kitzsteinhorn is one of the best and most popular freeride areas in the Alps, with absolute snow guarantee, numerous routes and a very varied off-piste area close to the lifts. By early winter, at the latest in November, you can make turns in the snow on the Kitzsteinhorn. The runs under the new Kristallbahn chairlift and the Langwiedbahn are a unique back country playground!

Check the daily freeride info base at the Alpine Centre and/or get info and tips from Wolfgang Leitner!
